

Textbook Adoption Public Viewing

Directions

Thank you for taking the time to view and give input for our Spanish, French, German, Family and Consumer Science and Agriculture textbook adoption. Below are helpful hints to guide you through your review.

- Make sure to sign in.
- Pick up a few copies of the Textbook Public Input form to record your thoughts on the books.
- Books are arranged by publisher and the grade levels offered by that publisher
- Start by choosing one grade level. View the sample of that grade level from each of the publishers to compare/contrast.
 - There is a copy of Louisiana State Standards in the room for you to use to check alignment. For example, if you are looking at Agriculture I books, you would use the Louisiana State Standards for AGRISCIENCE I. This set tells you what students in Agriculture I should be learning. The books should be aligned to and have lessons that develop these standards.
- Make sure to record your comment on the Textbook Public Input form.
- As you leave, please turn in your forms to the secretary.

Again, thank you for your time.

St. Tammany Parish Textbook Input Form
(World Language, Family & Consumer Science and Agriculture)

This review is for:

1. Subject (example: Spanish II): _____
2. Publisher: _____
3. Textbook Title: _____
